

Quick Communication

PROCESS: Neonatal Code Blue/ NRP Response for PUI/COVID+ (if unable to move infant from maternal room or positive case in NICU)	APPROVED BY: S. Snyder, M. Flood, A. Harding, J. Snider, K. Conners
DEPT(S): All System NICUs	DATE: 3/27/2020
PREPARED BY: Aimee Hardt CNS	FACILITY: St. Luke's Health System (SLHS)

Overall Goal:

Minimize number of staff in the room while providing appropriate response to Neonatal Code. Additional staff should remain outside of the room unless requested.

- **ALL STAFF ENTERING ROOM OF PUI OR COVID-19 POSITIVE PATIENT MUST WEAR ENHANCED DROPLET/ AIRBORNE PRECAUTIONS.**
- **DELIVERY BAG WILL BE LEFT OUTSIDE OF ROOM.**
 - In cases of limited staff availability, delivery bag may be brought into room when needed and cleansed afterwards (not preferred).
 - Sites should change delivery room bag packaging to enable appropriate cleaning and supply conservation.
- Staff may assume more than one role.
- Provider #2, Recorder, Pharmacist, and Runner need to remain outside of room.
- *Voalte phone will be utilized on speaker with door closed as much as possible.*
- ANM will remain outside to coordinate, if staffing allows.
- ANM/RN team leader/ NNP may assist with obtaining supplies from delivery bag/cart.
 - Supplies will be handed off to an available staff member inside the room.
- RN team leader/ NNP to request meds from Pharmacist.
 - Labeled medications will be handed through door to available staff.

Ensure double verification of medication and closed loop communication between all team members.
