WEBSITE: https://neonatal.rti.org/index.cfm?fuseaction=BPDCalculator.start

1. Utilize BPD Outcome Estimator for all infants <28wks GA

2. Input data at 21 days of life

3. Utilize ≥ 40% combined risk of death or severe BPD as treatment threshold

4. If combined risk at 21d is 30-40%, consider inputting data again at 28d

5. If decision to treat, complete full 10d DART course
